National Indigenous Reform Agreement: PI 12a—Attainment of Year 12 or equivalent (Census data), 2017

Identifying and definitional attributes

Metadata item type:	Indicator
Indicator type:	Indicator
Short name:	PI 12a—Attainment of Year 12 or equivalent (Census data), 2017
METEOR identifier:	645405
Registration status:	Indigenous, Superseded 06/06/2017
Description:	The indicator has two measures: (a) Proportion of the 20–24 year old population having attained at least Year 12 or equivalent or an Australian Qualifications Framework (AQF) Certificate level II or above, by Indigenous status. (b) Year 12 certification, by Indigenous status.
Indicator set:	National Indigenous Reform Agreement (2017) Indigenous, Superseded 06/06/2017
Outcome area:	Schooling promotes social inclusion and reduces the educational disadvantage of children, especially Indigenous children Indigenous, Standard 01/07/2016
Data quality statement:	National Indigenous Reform Agreement: PI 12a-Attainment of Year 12 or equivalent (Census data), 2015-16; Quality Statement Indigenous, Superseded 07/02/2018

Collection and usage attributes

Population group age from:	20 years
Population group age to:	24 years
Computation description:	Presentation: Number and percentage.
Computation:	100 x (Numerator ÷ Denominator).
Numerator:	a) People aged 20–24 years who have completed Year 12 or equivalent or whose level of highest non-school qualification is at AQF Certificate level II or above. b) Measure is yet to be developed.

Numerator data elements:

Comments:

No updated data are available for this cycle of reporting.

Measure (a):

The most recent data available are from the Australian Bureau of Statistics (ABS) 2011 Census.

The baseline report reported data, for measure (a) only, are from the 2006 Census.

People whose level of study is determined to be certificate level but is not able to be further defined (that is, Certificate nfd) are assumed to have attained below Certificate level II and are therefore excluded from the numerator. Certificate level II or above includes 'Certificate I or II nfd' but excludes 'Certificate nfd'.

People who did not state if they had a non-school qualification (or whose level of education was inadequately described) and did not have Year 12 are excluded from the calculation (numerator and denominator). People who did not state their highest year of school and did not have a qualification at Certificate level II or above are also excluded.

The Indigenous undercount in the Census may introduce bias into the results for Indigenous disaggregation, which may affect comparability across states and territories.

Data disaggregated by remoteness area were reported for the first time for the 2014 report.

Baseline year for NIRA target (Halve the gap for Indigenous people aged 20–24 in Year 12 attainment or equivalent attainment rates by 2020) is 2006; baseline year for this measure is 2006; target year is 2020.

Measure (b)

No data are available for reporting for measure (b) for the 2017 report (2015–16 reporting cycle), as this measure is yet to be developed.

Representational attributes

Representation class: Percentage

Data type: Real

Unit of measure: Person

Format: NN[N].N

Indicator conceptual framework

Framework and dimensions: Socioeconomic Factors

Data source attributes

Data sources:

Data Source

ABS 2011 Census of Population and Housing

Frequency

Every 5 years.

Data custodian

Australian Bureau of Statistics.

Accountability attributes

Organisation responsible for providing data: Australian Bureau of Statistics

Further data development / collection required: Specification: Long-term.

Source and reference attributes

Steward: National Indigenous Reform Agreement Performance Information Management Group
