Non-admitted patient emergency department service episode—triage category, code N

Identifying and definitional attributes

Metadata item type:	Data Element
Short name:	Triage category
METEOR identifier:	646659
Registration status:	Health , Superseded 25/01/2018
Definition:	The urgency of the patient's need for medical and nursing care as assessed at triage , as represented by a code.
Context:	Emergency department care.

Data element concept attributes

Identifying and definitional attributes

Data element concept:	Non-admitted patient emergency department service episode—triage category
METEOR identifier:	654147
Registration status:	Health , Superseded 06/09/2018
Definition:	The urgency of the patient's need for medical and nursing care.
Context:	Emergency department care: Required to provide data for analysis of emergency department processes.
Object class:	Non-admitted patient emergency department service episode
Property:	Triage category

Value domain attributes

Identifying and definitional attributes

Value domain:	Triage category code N
METEOR identifier:	270677
Registration status:	Health , Superseded 25/01/2018 Independent Hospital Pricing Authority , Standard 31/10/2012 National Health Performance Authority (retired) , Retired 01/07/2016
Definition:	A code set representing the triage categories.

Representational attributes

Representation class:	Code	
Data type:	Number	
Format:	N	
Maximum character length:	1	
Permissible values:	Value	Meaning
	1	Resuscitation: immediate (within seconds)
	2	Emergency: within 10 minutes

3	Urgent: within 30 minutes
4	Semi-urgent: within 60 minutes
5	Non-urgent: within 120 minutes

Data element attributes

Collection and usage attributes

Collection methods: This triage classification is to be used in the emergency departments of hospitals. Patients will be triaged into one of five categories on the Australasian Triage Scale according to the triageur's response to the question: 'This patient should wait for medical care no longer than ...?'.

The triage category is allocated by an experienced [registered nurse](#) or medical practitioner. If the triage category changes, both triage categories can be captured, but the original category must be reported in this data element.

A triage category should not be assigned for patients who have a Type of visit of 'Dead on arrival, emergency department clinician certified the death of the patient'.
