Adoption—application for information type, code N

Identifying and definitional attributes

Metadata item type:	Data Element
Short name:	Type of application for information
METEOR identifier:	650116
Registration status:	Children and Families , Superseded 03/11/2021
Definition:	The type of application seeking information about an individual in relation to an adoption , as represented by a code.
Data Element Concept:	Adoption—application for information type
Value Domain:	Application type code N

Value domain attributes

Representational attributes

Representation class:	Code	
Data type:	Number	
Format:	N	
Maximum character length:	1	
	Value	Meaning
Permissible values:	1	Application for identifying information
	2	Application for non-identifying information

Collection and usage attributes

Guide for use:	Parties to an adoption may apply for access to identifying or non-identifying information. CODE 1 Application for identifying information 'Identifying information' is information, such as the original birth certificate (adopted persons) or the amended birth certificate (birth parents), which identifies the actual person about whom the information is being sought. CODE 2 Application for non-identifying information 'Non-identifying information' does not identify the person about whom the information is sought; this can include age of birth parent(s) and place of birth.
----------------	---

Data element attributes

Collection and usage attributes

Guide for use:	This data element should be used in conjunction with the data element Adoption—person who lodged an application for information, party to an adoption code N[N] .
Comments:	In some jurisdictions, a person can seek both identifying and non-identifying information in a single application. This should be recorded as one application for identifying information and one application for non-identifying information.
