# Accommodation Cluster

## Exported from METEOR (AIHW's Metadata Online Registry)

# Accommodation Cluster

## Identifying and definitional attributes

| | |
|---|---|
| **Metadata item type:** | Data Set Specification |
| **METEOR identifier:** | 650528 |
| **Registration status:** | Commonwealth Department of Social Services (retired), Standard 20/06/2018 |
| **DSS type:** | Data Element Cluster |
| **Scope:** | The Accommodation cluster defines information about households and recipients that are eligible to receive Centrelink rental payments (type, frequency, payee, weekly payment amount), and information about homeownership status, accommodation type and subtenant status. |

## Collection and usage attributes

| | |
|---|---|
| **Statistical unit:** | Household, Recipient |

## Source and reference attributes

| | |
|---|---|
| **Submitting organisation:** | Australian Government Department of Social Services |

## Relational attributes

| | |
|---|---|
| **Implementation in Data Set Specifications:** | Priority investment approach research DSS Commonwealth Department of Social Services (retired), Standard 20/06/2018 |

## Metadata items in this Data Set Specification

| Seq No. | Metadata item | Obligation | Max occurs |
|---|---|---|---|
| - | Household—rent frequency, code XXX | Conditional | 1 |

*Conditional obligation:*

Conditional on the household renting.

*DSS specific information:*

Household rent frequency refers to the variable HH_RENT_FREQ_CODE in the PIA research data set.

| Seq No. | Metadata item | Obligation | Max occurs |
|---|---|---|---|
| - | Household—rent payer, code A | Conditional | 1 |

*Conditional obligation:*

Conditional on the household renting.

*DSS specific information:*

The variable RENT_PAYER_CODE from the PIA research DSS is used to capture the rent payer in the household.

| Seq No. | Metadata item | Obligation | Max occurs |
|---|---|---|---|
| - | Household—weekly rent paid, total Australian currency N[NNNNN].NN | Conditional | 1 |

*Conditional obligation:*

Conditional on the household renting.

*DSS specific information:*

Weekly household rent amount refers to the variable WEEKLY_HH_RENT_AMT in the PIA research data set.

'Total household rent amount' is used to create the derived variable, but is not included in the PIA research data set.

For the PIA research DSS the Guide for use information is not applicable.

| | | | |
|---|---|---|---|
| - | Recipient—government subtenant status, code AAA | Conditional | 1 |

*Conditional obligation:*

Conditional on the household renting.

*DSS specific information:*

The variable GOVT_SUBTENANT_CODE from the PIA research DSS is used to capture whether the recipient is a sub-tenant in accommodation where the primary tenant pays a subsidised rental for public housing.

| | | | |
|---|---|---|---|
| - | Recipient—home ownership status, code A | Mandatory | 1 |

*DSS specific information:*

The variable HOME_CODE from the PIA research DSS is used to capture home ownership status.

| | | | |
|---|---|---|---|
| - | Recipient—rent frequency, code XXX | Conditional | 1 |

*Conditional obligation:*

Conditional on the recipient renting.

*DSS specific information:*

The variable HH_RENT_FREQ_CODE from the PIA research DSS is used to capture household rent frequency.

| | | | |
|---|---|---|---|
| - | Recipient—rent type, code AAA | Conditional | 1 |

*Conditional obligation:*

Conditional on the recipient renting.

*DSS specific information:*

The variable RENT_TYPE_CODE from the PIA research DSS is used to capture rent type.

| Seq No. | Metadata item | Obligation | Max occurs |
|---|---|---|---|
| - | Recipient—type of shared accommodation, code AAA | Mandatory | 1 |

*DSS specific information:*

Type of shared accommodation refers to the variable ACCOM_CODE in the PIA research data set.

| Seq No. | Metadata item | Obligation | Max occurs |
|---|---|---|---|
| - | Recipient—weekly rent paid, total Australian currency N[NNNNN].NN | Conditional | 1 |

*Conditional obligation:*

Conditional on the recipient renting.

*DSS specific information:*

Weekly rent amount refers to the variable WEEKLY_RENT_AMT in the PIA research data set.

'Total recipient rent amount' is used to create the derived variable, but is not included in the data set.

For the PIA research DSS the Guide for use information is not applicable.
