Value Domain:	Date MMYYYY

Value domain attributes

Representational attributes

Representation class:	Date
Data type:	Date/Time
Format:	MMYYYY
Maximum character length:	6

Data element attributes

Collection and usage attributes

Comments:	Regular care is defined as care provided by the recipient to a child between 14% and 34% of the time. This is between 52 and 127 nights a year, or 2 to 4 nights of care a fortnight.
	Recipients with regular care children are eligible for Family Tax Benefit Rent Assistance.
	Where a recipient who is paying child support payments also has regular care of a child, the child support payments are adjusted to acknowledge that the recipient directly contributes to the costs of raising the child through regular care.
