Guide for use: This data element is used to determine a non-admitted patient service event.

For this reason, the following local NAPAAWL codes are excluded from counts of

non-admitted patient service events:

All other NMDS Tier 1 codes are in the scope of a non-admitted patient service event.

This data element is also used to derive the appointment mental health indicator. Appointments with a value of 080, 080.000 or 080.001 (Psychiatry) for the NMDS Tier 1 code will be assigned a value of Y (Yes) for the appointment mental health indicator.

All other NMDS Tier 1 codes are not classified as a specialised mental health service although an appointment may still be assigned a value of Y (Yes) for the appointment mental health indicator on the basis of the clinic category code or NHCDC Tier 2 code.
