Indigenous primary health care: PI14a-Number of regular clients aged 50 years and over who are immunised against influenza, 2015-2017

Identifying and definitional attributes

| | |
|-----------------------------|---|
| Metadata item type: | Indicator |
| Indicator type: | Output measure |
| Short name: | PI14a-Number of regular clients aged 50 years and over who are immunised against influenza, 2015-2017 |
| METEOR identifier: | 663954 |
| Registration status: | Health , Superseded 25/01/2018 Indigenous , Superseded 27/02/2018 |
| Description: | Number of regular clients who are Indigenous, aged 50 years and over and who are immunised against influenza. |
| Rationale: | Influenza remains a major cause of illness and death among Indigenous adults. Vaccination has been demonstrated to reduce deaths. |
| Indicator set: | Indigenous primary health care key performance indicators (2015-2017) Health , Superseded 25/01/2018 Indigenous , Superseded 27/02/2018 |

Collection and usage attributes

| | |
|-----------------------------------|--|
| Population group age from: | 50 years |
| Computation description: | <p>Count of regular clients who are Indigenous, aged 50 years and over and who are immunised against influenza.</p> <p>'Regular client' refers to a client of an Australian Government Department of Health-funded primary health care service (that is required to report against the Indigenous primary health care key performance indicators) who has an active medical record; that is, a client who has attended the Department of Health-funded primary health care service at least 3 times in 2 years.</p> <p>For Indigenous people aged 50 years and over, the <i>Australian Immunisation Handbook</i> (DoH 2013) recommends immunisation against influenza. An Indigenous person aged 50 years and over is immunised against influenza if they have received an influenza vaccine within the previous year.</p> <p>Presented as a number.</p> |
| Computation: | Numerator only |
| Numerator: | Number of regular clients who are Indigenous, aged 50 years and over and who are immunised against influenza. |
