Data type:	Number
Format:	NNNNN[NNN]
Maximum character length:	8

Source and reference attributes

Submitting organisation:	Australian Institute of Health and Welfare
---------------------------------	--

Data element attributes

Collection and usage attributes

Guide for use:	The service type outlet assigns the Record identifier to each completed Service User Form. The Record identifier must be numeric and may be an existing service user number used by the service type outlet .
-----------------------	---

This data element, used together with the [Service type outlet—outlet identifier, XX\[X\(26\)\]](#), enables identification of a Service User Form without the need to identify an individual by name or other information. In software, this data element can be used to link records.
