# Indigenous primary health care: PI15b-Proportion of regular clients with Type II diabetes or COPD who are immunised against influenza, 2015-2017

## Identifying and definitional attributes

Metadata item type:	Indicator
Indicator type:	Indicator
Short name:	PI15b-Proportion of Indigenous regular clients with Type II diabetes or COPD who are immunised against influenza, 2015-2017
METEOR identifier:	686388
Registration status:	<u>Health</u> , Superseded 17/10/2018 <u>Indigenous</u> , Superseded 17/10/2018
Description:	Proportion of regular clients who are Indigenous, aged 15-49 years, are recorded as having Type II diabetes or chronic obstructive pulmonary disease (COPD) and are immunised against influenza.
Indicator set:	Indigenous primary health care key performance indicators (2015-2017) Health, Superseded 17/10/2018 Indigenous, Superseded 17/10/2018

### Collection and usage attributes

Population group age from:	15 years
Population group age to:	49 years
Computation description:	Proportion of regular clients who are Indigenous, aged 15-49 years, are recorded as having Type II diabetes or COPD and are immunised against influenza.
	'Regular client' refers to a client of an Australian Government Department of Health- funded primary health care service (that is required to report against the Indigenous primary health care key performance indicators) who has an active medical record; that is, a client who has attended the Department of Health-funded primary health care service at least 3 times in 2 years.
	A client is considered to be immunised against influenza if they have received an influenza vaccination within the previous year.
	Presented as a number.
Computation:	(Numerator ÷ Denominator) x 100
Numerator:	Calculation A: Number of regular clients who are Indigenous, aged 15-49 years, are recorded as having Type II diabetes and are immunised against influenza.
	Calculation B: Number of regular clients who are Indigenous, aged 15-49 years, are recorded as having COPD and are immunised against influenza.
Numerator data elements:	Data Element / Data Set
	Person-diabetes mellitus status, code NN
