Indigenous primary health care: PI14a-Number of regular clients aged 50 years and over who are immunised against influenza, 2018-2019

Exported from METEOR (AIHW's Metadata Online Registry)

Indigenous primary health care: PI14a-Number of regular clients aged 50 years and over who are immunised against influenza, 2018-2019

Identifying and definitional attributes

Metadata item type:	Indicator
Indicator type:	Output measure
Short name:	PI14a-Number of regular clients aged 50 years and over who are immunised against influenza, 2018-2019
METEOR identifier:	687978
Registration status:	Health, Superseded 16/01/2020 Indigenous, Superseded 14/07/2021
Description:	Number of regular clients who are Indigenous, aged 50 and over and who are immunised against influenza.
Rationale:	Influenza remains a major cause of illness and death among Indigenous adults. Vaccination has been demonstrated to reduce deaths.
Indicator set:	Indigenous primary health care key performance indicators 2018-2019 Health, Superseded 16/01/2020 Indigenous, Superseded 14/07/2021

Collection and usage attributes

Population group age from:	50 years
Computation description:	Count of regular clients who are Indigenous, aged 50 and over and who are immunised against influenza. 'Regular client' refers to a client of an Australian Government Department of Health-funded primary health-care service (that is required to report against the Indigenous primary health care key performance indicators) who has an active medical record; that is, a client who has attended the Department of Health-funded primary health-care service at least 3 times in 2 years. For Indigenous people aged 50 and over, the *Australian Immunisation Handbook* (DoH 2017) recommends immunisation against influenza. An Indigenous person aged 50 and over is immunised against influenza if they have received an influenza vaccine within the previous year. Presented as a number.
Computation:	Numerator only
Numerator:	Number of regular clients who are Indigenous, aged 50 years and over and who are immunised against influenza.
