Collection and usage attributes

Comments:Prior to 13 March 2018, the definition of the 'Person' Object class was 'A human
being, whether man, woman or child'. From 13 March 2018, the definition was
edited by removing the words '...whether man, woman or child' so that a person is
defined as 'A human being'. This amendment was undertaken to align the definition
of a person with the Australian Government Guidelines on the Recognition of Sex
and Gender and the Australian Bureau of Statistics (ABS) Standard for Sex and
Gender Variables, which recognise that there are sex and gender types that are
not exclusively male or female.
