Data element attributes

Collection and usage attributes

Guide for use:	This data element captures the size of the presenting unit. The presenting unit is defined as the unit that presents for assistance from a specialist homelessness agency. The presenting unit may be a single person or a group of people. For example a family presenting together for services would be a presenting unit.

Children are to be included in the count of people presenting for assistance. That is the presenting unit. |
| **Collection methods:** | How many people are presenting for assistance? |
