9	Not stated/inadequately described												

Source and reference attributes

Submitting organisation: Australian Institute of Health and Welfare

Origin: Dawson D, Grant B, Stinson F & Zhou Y 2005. Effectiveness of the derived Alcohol Use Disorders Identification Test (AUDIT-C) in screening for alcohol use disorders and risk drinking in the US general population. Alcohol Clinical and Experimental Research 29(5): 844–854.

Data element attributes

Collection and usage attributes

Guide for use: CODE 0 Never

Record if a female did not consume alcohol in the first 20 weeks of pregnancy.

CODE 1 Monthly or less

Record if a female consumed alcohol monthly or less in the first 20 weeks of pregnancy.

CODE 2 2–4 times a month

Record if a female consumed alcohol 2 to 4 times a month in the first 20 weeks of pregnancy.

CODE 3 2–3 times a week

Record if a female consumed alcohol 2 to 3 times a week in the first 20 weeks of pregnancy.

CODE 4 4 or more times a week

Record if a female consumed alcohol 4 or more times a week in the first 20 weeks of pregnancy.

CODE 9 Not stated/inadequately described

This code is not for use in primary data collections.

Collection methods: This data element is self-reported.

Recommended question: 'How often did you have a drink containing alcohol in the first 20 weeks of pregnancy?', where the first 20 weeks of pregnancy is defined as less than or equal to 19 weeks + 6 days.

To ensure consistency of results, this data element should be collected after the first 20 weeks of pregnancy.
