Person—proficiency in spoken English, code N

Identifying and definitional attributes

Metadata item type:	Data Element
Short name:	Proficiency in spoken English
METEOR identifier:	695981
Registration status:	Health , Standard 05/10/2022 Homelessness , Standard 10/08/2018
Definition:	A person's self-assessed level of ability to speak English, as represented by a code.

Data element concept attributes

Identifying and definitional attributes

Data element concept:	Person—proficiency in spoken English
METEOR identifier:	269667
Registration status:	Community Services (retired) , Standard 01/03/2005 Disability , Standard 13/08/2015 Health , Standard 01/03/2005 Homelessness , Standard 10/08/2018 Housing assistance , Standard 10/02/2006
Definition:	A person's self-assessed level of ability to speak English.
Object class:	Person
Property:	Proficiency in spoken English

Value domain attributes

Identifying and definitional attributes

Value domain:	Proficiency in spoken English code N
METEOR identifier:	695979
Registration status:	Homelessness , Standard 10/08/2018
Definition:	A code set representing the level of ability to speak English.

Representational attributes

Representation class:	Code	
Data type:	Number	
Format:	N	
Maximum character length:	1	
	Value	Meaning
Permissible values:	1	Very well
	2	Well
	3	Not well
	4	Not at all
Supplementary values:	7	Not applicable

Collection and usage attributes

Guide for use: CODE 7 Not applicable

This code is used for respondents who do not speak a language other than English for their first language spoken and/or do not speak a language other than English at home.

CODE 9 Not stated/inadequately described

This code is not to be used on primary collection forms. It is primarily for use in administrative collections when transferring data from data sets where the item has not been collected.

Collection methods: A question on proficiency in spoken English is asked of respondents whose first language spoken is a language other than English, or those who speak a language other than English at home.

Source and reference attributes

Reference documents: ABS 2016. Language standards, 2016. ABS cat. no. 1200.0.55.005. Canberra: ABS. Viewed 27 October 2017, <http://www.abs.gov.au/ausstats/abs@.nsf/mf/1200.0.55.005>.

Data element attributes

Collection and usage attributes

Collection methods:

This data element is only intended to be collected for people whose first language spoken is a language other than English, or who speak a language other than English at home.

There are 2 standard question modules for collecting proficiency in spoken English: self-enumerated surveys and surveys conducted by interview.

Self-enumerated survey:

Question: How well [do you] [does the person] speak English?

- Very well
☐
- Well
☐
- Not well
☐
- Not at all
☐

Interview-based survey:

Question: Do you consider [you speak] [(name)] speaks] English very well, well, not well or not at all?

- Very well
☐
- Well
☐
- Not well
☐
- Not at all
☐

Generally this would be a self-reported question, but in some circumstances (particularly where a person does not speak English well) assistance may be required in answering this question. It is important that the person's self-assessed proficiency in spoken English be recorded wherever possible.

The standard question modules for proficiency in spoken English should be asked after a language question which identifies people who speak a language other than English. This can be done using the following variables:

- First language spoken
- Languages spoken at home
- Main language other than English spoken at home
- Main language spoken at home.

Comments:

For people living in Australia a lack of proficiency in spoken English may impact a person's access to employment, education and other government and non-government services. This data element is used primarily to identify people who may experience disadvantage as a result of a lack of competence in spoken English. This information can be used to assess, measure and monitor service needs.

In conjunction with the data elements [Person—Indigenous status, code N](#), [Person—main language other than English spoken at home, code \(ASCL 2016\) N\[NNN\]](#) and [Person—country of birth, code \(SACC 2016\) NNNN](#); this data element forms the minimum core set of cultural and language variables recommended by the Australian Bureau of Statistics for collection.
