Representational attributes

Representation class:	Date
Data type:	Date/Time
Format:	YYYY
Maximum character length:	4

Source and reference attributes

Submitting organisation: Australian Institute of Health and Welfare

Data element attributes

Collection and usage attributes

Guide for use: Record the year that the patient was first diagnosed as having diabetes.

Collection methods: Ask the individual the year when he/ she was diagnosed with diabetes. Alternatively obtain this information from appropriate documentation, if available.

Comments: Diagnostic information provides the basis for analysis of health service usage, epidemiological studies and monitoring of specific disease entities and conditions.

Source and reference attributes

Submitting organisation: National diabetes data working group

Origin: National Diabetes Outcomes Quality Review Initiative (NDOQRIN) data dictionary
