

Person—consumption of 6 or more standard drinks on one occasion, AUDIT consuming 6 or more standard drinks code N

Identifying and definitional attributes

Metadata item type:	Data Element
Short name:	Consumption of 6 or more standard drinks on one occasion
METEOR identifier:	696847
Registration status:	<ul style="list-style-type: none">• Health, Qualified 30/05/2018
Definition:	A person's self-reported frequency of consuming six or more standard drinks on one occasion, as represented by a code.
Data Element Concept:	Person—consumption of 6 or more standard drinks on one occasion

Value domain attributes

Representational attributes

Representation class:	Code												
Data type:	Number												
Format:	N												
Maximum character length:	1												
Permissible values:	<table><thead><tr><th>Value</th><th>Meaning</th></tr></thead><tbody><tr><td>0</td><td>Never</td></tr><tr><td>1</td><td>Less than monthly</td></tr><tr><td>2</td><td>Monthly</td></tr><tr><td>3</td><td>Weekly</td></tr><tr><td>4</td><td>Daily or almost daily</td></tr></tbody></table>	Value	Meaning	0	Never	1	Less than monthly	2	Monthly	3	Weekly	4	Daily or almost daily
Value	Meaning												
0	Never												
1	Less than monthly												
2	Monthly												
3	Weekly												
4	Daily or almost daily												

Supplementary values:	<table><thead><tr><th>Value</th><th>Meaning</th></tr></thead><tbody><tr><td>9</td><td>Unknown</td></tr></tbody></table>	Value	Meaning	9	Unknown
Value	Meaning				
9	Unknown				

Collection and usage attributes

Guide for use:	For use in Prisoner health data collections. If this value domain is used with other metadata 'Unknown' would be mapped to code 8.

Data element attributes

Collection and usage attributes

Guide for use: This data element should be used in conjunction with the data elements: [Person—alcohol consumption frequency, AUDIT frequency alcohol consumption code N](#) and [Person—alcohol consumption amount, total standard drinks N\[N\]](#) to obtain a score on the Alcohol Use Disorders Identification Test (AUDIT) and consequently obtain a risk of alcohol-related harm.

Comments: The AUDIT is an alcohol screen that can help identify patients who are hazardous drinkers or have active alcohol use disorders (including alcohol abuse or dependence).

Implementation in Data Set Specifications:

[AUDIT-C score of risky alcohol consumption cluster \(dischargee\)Health](#), Qualified
30/05/2018

Conditional obligation:

Conditional on the person having had an alcoholic drink prior to their current incarceration.

DSS specific information:

This data element refers to prison discharges only.

The AUDIT contains the question 'How often do you have six or more standard drinks on one occasion?' The Prisoner Health Information Group amended the question wording for the National Prisoner Health Census to 'Prior to your current incarceration, how often did you have six or more standard drinks on one occasion?'
