

Venous thromboembolism prevention clinical care standard indicators: Proportion of patients prescribed appropriate venous thromboembolism prophylaxis

Identifying and definitional attributes

Metadata item type:	Indicator
Indicator type:	Indicator
Technical name:	Venous thromboembolism prevention clinical care standard indicators: Proportion of patients prescribed appropriate venous thromboembolism prophylaxis
METEOR identifier:	697323
Registration status:	<ul style="list-style-type: none">• Australian Commission on Safety and Quality in Health Care, Standard 11/10/2018
Description:	Proportion of patients prescribed appropriate venous thromboembolism (VTE) prophylaxis.
Indicator set:	Clinical care standard indicators: venous thromboembolism (VTE) prevention Australian Commission on Safety and Quality in Health Care , Standard 11/10/2018

Collection and usage attributes

Computation description:	<p>For the numerator, 'appropriate' means in relation to the patient's VTE and bleeding risks, and in accordance with the locally approved guideline/policy.</p> <p>VTE prophylaxis may include medicines, mechanical devices, early mobilisation and/ or patient education. For lower risk patients, prophylaxis may not be required. The requirement for prophylaxis and the type should be documented in the patient's medical record.</p> <p>Presented as a percentage.</p>
Computation:	$(\text{Numerator} \div \text{Denominator}) \times 100$
Numerator:	The number of patients prescribed VTE prophylaxis appropriate to their VTE and bleeding risks, and in accordance with the locally approved guideline/policy.
Denominator:	The number of patients prescribed VTE prophylaxis.
Comments:	See the Venous thromboembolism prevention clinical care standard (ACSQHC 2018) for key considerations for the safe and effective use of VTE prevention methods.

Representational attributes

Representation class:	Percentage
Data type:	Real
Unit of measure:	Service event
Format:	N[NN]

Accountability attributes

Other issues caveats:	Applicable settings: public and private hospitals and day procedure centre.
