

National Healthcare Agreement: PI 19– Selected potentially avoidable GP-type presentations to emergency departments, 2019

Identifying and definitional attributes

Metadata item type:	Indicator
Indicator type:	Progress measure
Short name:	PI 19–Selected potentially avoidable GP-type presentations to emergency departments, 2019
METEOR identifier:	698902
Registration status:	<ul style="list-style-type: none">• Health, Superseded 13/03/2020
Description:	Attendances at public hospital emergency departments that could have potentially been avoided through the provision of appropriate non-hospital services in the community.
Indicator set:	National Healthcare Agreement (2019) Health , Superseded 13/03/2020
Outcome area:	Primary and Community Health Health , Standard 07/07/2010

Collection and usage attributes

Computation description: Potentially avoidable general practitioner (GP)-type presentations are defined as presentations to public hospital emergency departments with a Type of visit of *Emergency presentation* where the patient:

- was allocated a Triage category of 4 (Semi-urgent: within 60 minutes) or 5 (Non-urgent: within 120 minutes) and
- did not arrive by ambulance, or police or correctional vehicle and
- was not admitted to the hospital, not referred to another hospital, or did not die.

The scope for calculation of this indicator is all hospitals reporting to the Non-admitted patient emergency department care (NAPEDC) National Minimum Data Set (NMDS) 2017–18 and the NAPEDC National Best Endeavours Data Set (NBEDS) 2017–18.

Analysis by state and territory, remoteness and Socio-Economic Indexes for Areas (SEIFA) Index of Relative Socio-Economic Disadvantage (IRSD) is based on usual residence of the person.

Presented as a number.

Computation: Numerator only.

Numerator: Number of potentially avoidable GP-type presentations to emergency departments.

Numerator data elements:

Data Element / Data Set

Disaggregation:

2017–18—State and territory.

Nationally by 2016 SEIFA IRSD deciles (not reported this cycle).

State and territory, by (all not reported this cycle):

- Indigenous status
- remoteness (Australian Statistical Geography Standard (ASGS) 2016)
- 2016 SEIFA IRSD quintiles
- peer group and triage category.

Some disaggregations may result in numbers too small for publication.

Disaggregation data elements:

Guide for use

Data source type: Administrative by-product data
Used for disaggregation by state/territory, remoteness and SEIFA IRSD

Comments:

Most recent data available for 2019 National Healthcare Agreement performance reporting: 2017–18.

This definition of 'potentially avoidable GP-type presentation' was used in the [Booz Allen Hamilton study of emergency department care in NSW](#), and is considered to be a reasonable starting approximation of the population that should be receiving service in the primary care sector.

Note that for the 2016 and previous reports the scope for the calculation of this indicator was limited to public hospitals in Peer groups A and B, using the peer group classification method as reported in *Australian hospital statistics 2010–11*, with the addition of emergency department activity at the Mersey Community Hospital.

Representational attributes

Representation class:	Count
Data type:	Real
Unit of measure:	Episode
Format:	NN[NNNNN]

Indicator conceptual framework

Framework and dimensions: [Accessibility](#)

Data source attributes

Data sources:	Data Source National Non-admitted Patient Emergency Department Care Database
	Frequency Annual
	Data custodian Australian Institute of Health and Welfare

Accountability attributes

Reporting requirements:	National Healthcare Agreement
Organisation responsible for providing data:	Australian Institute of Health and Welfare

Further data development / collection required: Specification: Substantial work required, the measure requires significant work to be undertaken.

Source and reference attributes

Reference documents: Booz Allen Hamilton 2007. Key Drivers of Demand in the Emergency Department. Sydney: New South Wales Department of Health.
