<b>Submitting organisation:</b>	Independent Hospital Pricing Authority
<b>Reference documents:</b>	IHPA 2019. Emergency department ICD-10-AM (11th edn) principal diagnosis short list. Sydney: IHPA. TBC

## Data element attributes

## Collection and usage attributes

**Guide for use:** An emergency department stay ends when either the patient is admitted, died or, if the patient is not to be admitted, when the patient is recorded as ready to leave the emergency department or when they are recorded as having left at their own risk.

The phrase 'at the conclusion' in the definition refers to evaluation of findings interpreted by the clinician available at the end of the emergency department stay. This may include information gained from the history of illness, any mental status evaluation, specialist consultations, physical examinations, diagnostic tests or procedures, surgical procedures and pathological or radiological examinations.

## Source and reference attributes

**Conditional obligation:**

The reporting of this data element is conditional for those attendances where the value recorded for Non-admitted patient emergency department service episode—episode end status is reported as either:

Code 4 - Did not wait to be attended by a health care professional;  
 Code 5 - Left at own risk after being attended by a health care professional but before the non-admitted patient emergency department service episode was completed; or  
 Code 7 - Dead on arrival, emergency department clinician certified the death of the patient or  
 Code 8 - Registered, advised of another health care service, and left the emergency department without being attended by a health care professional.
