Collection and usage attributes

Guide for use:

Allied health clinical support activity, including [clinical service management \(CSM\)](#), [teaching and training \(TT\)](#) and [research \(R\)](#) should be recorded as totals for each [allied health service provider](#) for each activity type for each day.

[Teaching and Training \(TT\)](#) activities may include, but are not limited to:

- imparting of knowledge, skills and clinical competency to undergraduate students
- imparting of knowledge, skills and clinical competency to postgraduate students
- imparting of knowledge, skills and clinical competency to practitioners within one's own discipline
- imparting of knowledge, skills and clinical competency to practitioners from another discipline
- allied health clinical placement co-ordination
- travel specifically associated with teaching and training activities
- preparation and delivery of formal in-services, lectures, tutorials or seminars
- Allied Health Assistant vocational education and training program - participation in and supervision of students involved in

Supervision of staff in the form of professional development, whereby they are not involved in a structured program, should be regarded as Clinical Service Management.

Attending in-services, lectures, seminars and conferences or any other means of receiving teaching and training is professional development and is classified as clinical services management.

[Research \(R\) activities may include, but are not limited to:](#)

- research activities
- travel specifically associated with research activities

Activities such as a literature review for quality improvement would be considered CSM, whereas a formally constructed research project approved by a research committee or equivalent body.
