Has been superseded by [Product of birth—birthweight, code N](#)

- [Indigenous](#), Standard 14/07/2021

Implementation in Data Set Specifications:

[Indigenous primary health care NBEDS 2019–20 Health](#), Superseded 16/01/2020
[Indigenous](#), Superseded 14/07/2021

Implementation start date: 01/07/2019

Implementation end date: 30/06/2020

DSS specific information:

In the Indigenous primary health care NBEDS, birth weight is defined as the first weight of a baby obtained after birth. The birth weight is that which is recorded as birth weight by services on their Patient Information Referral Systems (PIRS). The date of admission is not relevant for this NBEDS.

This item is only collected for infants born during the preceding 12 months.

[Indigenous primary health care NBEDS 2020–21 Health](#), Retired 13/10/2021

Implementation start date: 01/07/2020

Implementation end date: 30/06/2021

Conditional obligation:

Reporting of this data element is conditional on a CODE 1 response to 'Pregnancy—birth plurality, code N'.

This item is only collected for live singleton babies born during the preceding 12 months.

DSS specific information:

In the Indigenous primary health care NBEDS, birth weight is defined as the first weight of a baby obtained after birth. The birth weight is that which is recorded as birth weight by services on their Patient Information Referral Systems (PIRS). The date of admission is not relevant for this NBEDS.

Implementation in Indicators:

Used as Numerator
