Person—birthweight recorded indicator, yes/no code N

Identifying and definitional attributes

Metadata item type: Data Element

Short name: Birthweight recorded indicator

METEOR identifier: 709571

Registration status: Health, Standard 12/12/2018

Indigenous, Standard 02/04/2019

Definition: An indicator of whether a person's <u>birthweight</u> has been recorded, as represented

by a code

Data Element Concept: Person—birthweight recorded indicator

Value Domain: Yes/no code N

Value domain attributes

Representational attributes

Representation class: Code

Data type: Boolean

Format: N
Maximum character length: 1

Value Meaning

Permissible values: 1 Yes

2 No

Source and reference attributes

Submitting organisation: Australian Institute of Health and Welfare

Data element attributes

Collection and usage attributes

Guide for use: CODE 1 Yes

A person's birthweight has been recorded.

CODE 2 No

A person's birthweight has not been recorded.

Specifications:

Implementation in Data Set Aboriginal and Torres Strait Islander specific primary health care NBEDS December 2023

> Indigenous, Standard 25/02/2024 Implementation start date: 01/07/2023 Implementation end date: 31/12/2023

Conditional obligation:

Data are only provided to the AIHW for babies born during the preceding 12 months up to the census date. In the case of multiple births, data should be recorded for each baby born.

Data are provided to the AlHW for <u>live births</u> only.

DSS specific information:

In the ATSISPHC NBEDS only aggregated data with 'CODE 1 Yes' are provided to the AIHW.

In the ATSISPHC NBEDS, babies do not need to fulfil all the requirements of being a First Nations regular client, as long as they have a medical record at the health organisation and have attended more than once. Attendance is counted using the baby's client record only.

The birthweight is to be taken from the baby's client record where available. Where the birthweight is not recorded in the baby's client record, the mother's record may be used as a source of birth details.

The birthweight may have been recorded during an appointment or received from sharing client data with other organisations, such as a hospital.

Aboriginal and Torres Strait Islander specific primary health care NBEDS June 2024

Indigenous, Qualified 17/04/2024 Implementation start date: 01/01/2024 Implementation end date: 30/06/2024

Conditional obligation:

Data are only provided to the AIHW for babies born during the preceding 12 months up to the census date. In the case of multiple births, data should be recorded for each baby born.

Data are provided to the AIHW for live births only.

DSS specific information:

In the ATSISPHC NBEDS only aggregated data with 'CODE 1 Yes' are provided to the AIHW.

In the ATSISPHC NBEDS, babies do not need to fulfil all the requirements of being a First Nations regular client, as long as they have a medical record at the health organisation and have attended more than once. Attendance is counted using the baby's client record only.

The birthweight is to be taken from the baby's client record where available. Where the birthweight is not recorded in the baby's client record, the mother's record may be used as a source of birth details.

The birthweight may have been recorded during an appointment or received from sharing client data with other organisations, such as a hospital.

Indigenous primary health care NBEDS 2019-20

Health, Superseded 16/01/2020 Indigenous, Superseded 14/07/2021

Implementation start date: 01/07/2019 Implementation end date: 30/06/2020

Conditional obligation:

This item is only collected for infants born during the preceding 12 months.

Indigenous primary health care NBEDS 2020–21 Health, Retired 13/10/2021

Implementation start date: 01/07/2020 Implementation end date: 30/06/2021

Conditional obligation:

This item is only collected for babies born during the preceding 12 months.

In the case of multiple births, this data element should be recorded for each baby born.

Indigenous-specific primary health care NBEDS December 2020

Indigenous, Superseded 03/07/2022 Implementation start date: 01/07/2020 Implementation end date: 31/12/2020

Conditional obligation:

Data are only provided to the AlHW for babies born during the preceding 12 months up to the census date. In the case of multiple births, data should be recorded for each baby born.

Data are provided to the AIHW for live births only.

Data are not provided to the AlHW for babies without a medical record of their own at the health organisation, even if their information is recorded in their mother's record.

DSS specific information:

In the ISPHC NBEDS, babies do not need to fulfil all the requirements of being an <u>Indigenous regular client</u>, as long as they have a file at the health organisation.

The birthweight may have been recorded during an appointment or received from sharing client data with other organisations, such as a hospital.

In the ISPHC NBEDS only aggregated data with CODE 1 are provided to the AIHW.

Indigenous-specific primary health care NBEDS December 2021 Indigenous, Superseded 12/06/2023

Implementation start date: 01/07/2021 Implementation end date: 31/12/2021

Conditional obligation:

Data are only provided to the AlHW for babies born during the preceding 12 months up to the census date. In the case of multiple births, data should be recorded for each baby born.

Data are provided to the AIHW for live births only.

DSS specific information:

In the ISPHC NBEDS, babies do not need to fulfil all the requirements of being an **Indigenous regular client**, as long as they have a file at the health organisation and have attended more than once. Attendance is counted using the baby's client record only.

The birthweight is to be taken from the baby's client record where available. Where the birthweight is not recorded in the baby's client record, the mother's record may be used as a source of birth details.

The birthweight may have been recorded during an appointment or received from sharing client data with other organisations, such as a hospital.

In the ISPHC NBEDS only aggregated data with CODE 1 are provided to the AIHW.
