

Person—birthweight recorded indicator, yes/no code N

Identifying and definitional attributes

Metadata item type:	Data Element
Short name:	Birthweight recorded indicator
METEOR identifier:	709571
Registration status:	<ul style="list-style-type: none">• Health, Standard 12/12/2018• Indigenous, Standard 02/04/2019
Definition:	An indicator of whether a person's birthweight has been recorded, as represented by a code.

Data element concept attributes

Identifying and definitional attributes

Data element concept:	Person—birthweight recorded indicator
METEOR identifier:	709566
Registration status:	<ul style="list-style-type: none">• Health, Standard 12/12/2018• Indigenous, Standard 02/04/2019
Definition:	An indicator of whether a person's birthweight has been recorded.
Object class:	Person
Property:	Birthweight recorded indicator

Source and reference attributes

Submitting organisation: Australian Institute of Health and Welfare (AIHW)

Value domain attributes

Identifying and definitional attributes

Value domain:	Yes/no code N
METEOR identifier:	270732

Registration status:

Definition: A code set representing 'yes' and 'no'.

Representational attributes

Representation class: Code

Data type: Boolean

Format: N

Maximum character length: 1

Permissible values:

Value	Meaning
1	Yes
2	No

Data element attributes

Collection and usage attributes

Guide for use: CODE 1 Yes

A person's birthweight has been recorded.

CODE 2 No

A person's birthweight has not been recorded.

Source and reference attributes

Submitting organisation: Australian Institute of Health and Welfare (AIHW)

Implementation start date: 01/07/2019

Implementation end date: 30/06/2020

Conditional obligation:

This item is only collected for infants born during the preceding 12 months.

[Indigenous primary health care NBEDS 2020–21 Health](#), Retired 13/10/2021

Implementation start date: 01/07/2020

Implementation end date: 30/06/2021

Conditional obligation:

This item is only collected for babies born during the preceding 12 months.

In the case of multiple births, this data element should be recorded for each baby born.

[Indigenous-specific primary health care NBEDS December 2020 Indigenous](#), Standard 14/07/2021

Implementation start date: 01/07/2020

Implementation end date: 31/12/2020

Conditional obligation:

Data are only provided to the AIHW for babies born during the preceding 12 months up to the census date. In the case of multiple births, data should be recorded for each baby born.

Data are provided to the AIHW for [live births](#) only.

Data are not provided to the AIHW for babies without a medical record of their own at the health organisation, even if their information is recorded in their mother's record.

DSS specific information:

In the ISPHC NBEDS, babies do not need to fulfil all the requirements of being an [Indigenous regular client](#), as long as they have a file at the health organisation.

The birthweight may have been recorded during an appointment or received from sharing client data with other organisations, such as a hospital.

In the ISPHC NBEDS only aggregated data with CODE 1 are provided to the AIHW.

[Indigenous-specific primary health care NBEDS June 2021 Indigenous](#), Standard 03/07/2022

Implementation start date: 01/01/2021

Implementation end date: 30/06/2021

Conditional obligation:

Data are only provided to the AIHW for babies born during the preceding 12 months up to the census date. In the case of multiple births, data should be recorded for each baby born.

Data are provided to the AIHW for [live births](#) only.

DSS specific information:

In the ISPHC NBEDS, babies do not need to fulfil all the requirements of being an [Indigenous regular client](#), as long as they have a file at the health organisation and have attended more than once. Attendance is counted using the baby's client record only.

The birthweight is to be taken from the baby's client record where available. Where the birthweight is not recorded in the baby's client record, the mother's record may be used as a source of birth details.

The birthweight may have been recorded during an appointment or received from sharing client data with other organisations, such as a hospital.

In the ISPHC NBEDS only aggregated data with CODE 1 are provided to the AIHW.

Implementation in Indicators:

Used as Numerator

[Indigenous primary health care: PI01a-Number of Indigenous babies born within the previous 12 months whose birthweight has been recorded, June 2020 Health](#), Retired 13/10/2021
[Indigenous](#), Superseded 14/07/2021

[Indigenous primary health care: PI01b-Proportion of Indigenous babies born within the previous 12 months whose birthweight has been recorded, June 2020 Health](#), Retired 13/10/2021
[Indigenous](#), Superseded 14/07/2021

[Indigenous-specific primary health care: PI01a-Number of Indigenous babies born within the previous 12 months who attended the organisation more than once, and who have birthweight recorded, June 2021 Indigenous](#), Standard 03/07/2022

[Indigenous-specific primary health care: PI01a-Number of Indigenous babies born within the previous 12 months who have birthweight recorded, December 2020 Indigenous](#), Superseded 03/07/2022

[Indigenous-specific primary health care: PI01b-Proportion of Indigenous babies born within the previous 12 months who attended the organisation more than once, and who have birthweight recorded, June 2021 Indigenous](#), Standard 03/07/2022

[Indigenous-specific primary health care: PI01b-Proportion of Indigenous babies born within the previous 12 months who have birthweight recorded, December 2020 Indigenous](#), Superseded 03/07/2022

Used as Denominator

[Indigenous primary health care: PI02b-Proportion of Indigenous babies born within the previous 12 months whose birthweight results were low, normal or high, June 2020 Health](#), Retired 13/10/2021
[Indigenous](#), Superseded 14/07/2021

[Indigenous-specific primary health care: PI02b-Proportion of Indigenous babies born within the previous 12 months who attended the organisation more than once, and who have a birthweight result within a specified category, June 2021 Indigenous](#), Standard 03/07/2022

[Indigenous-specific primary health care: PI02b-Proportion of Indigenous babies born within the previous 12 months who have a birthweight result within specified categories, December 2020 Indigenous](#), Superseded 03/07/2022
