<b>Description:</b>	The percentage of patients removed who waited more than 365 days for admission to a public hospital for elective surgery.
<b>Indicator set:</b>	<a href="#">Australian Health Performance Framework, 2019 Health</a> , Standard 09/04/2020

## Collection and usage attributes

**Computation description:** [Elective surgery](#) as defined in the Elective surgery waiting times national minimum data set (NMDS).

Intended procedures are as defined in permissible values 001 to 017 in [Elective surgery waiting list episode—intended procedure, code NNN](#).

Waiting time is as defined in [Elective surgery waiting list episode—waiting time \(at removal\), total days N\[NNN\]](#). Calculated by jurisdictions by subtracting the listing date for care from the removal date, minus any days the patient was waiting with a less urgent clinical urgency category than their clinical urgency category at removal, and excluding days where the patient was not ready for care.

Waiting times are calculated for patients whose reason for removal was:

1. Admitted as an elective patient for awaited procedure by or on behalf of this hospital or the state/territory.
2. Admitted as an emergency patient for awaited procedure by or on behalf of this hospital or the state/territory.

Analysis by state and territory based on location of service.

Presented as a percentage.

**Computation:**  $100 \times (\text{Numerator} \div \text{Denominator})$

**Numerator:** Number of patients removed from elective surgery waiting lists whose waiting time was more than 365 days.
