**Comments:** Most recent data available for the 2020 National Healthcare Agreement performance reporting: 2018–19.

Commencing services receive accreditation for one year in the first instance, and are excluded from consideration until their first re-accreditation occurs.

Re-accreditation is provided for a period up to 3 years for most residential aged care homes. A pilot program commenced in 2014–15 whereby residential aged care homes in the pilot program are eligible for five years re-accreditation. These homes are included in this indicator with homes that achieved 3 year re-accreditation. Three or more year re-accreditation indicates that the facility:

- meets all or almost all 44 expected outcomes and/or does not have any failure to meet the standards that compromises the health, safety or wellbeing of the residents;
- has satisfied the Aged Care Quality and Safety Commission (ACQSC) that it will rectify any identified failure to meet the Accreditation Standards in a short timeframe;
- is not in breach of any other significant obligations under the *Aged Care Act 1997* notified to the ACQSC by the Australian Government Department of Health; and
- has satisfied the ACQSC that it undertakes continuous improvement.

Summary national and state/territory data appear in the annual report of the ACQSC are also published in the annual Report on Government Services.
