<b>Registration status:</b>	<ul style="list-style-type: none"><li>• <a href="#">Health</a>, Retired 13/10/2021</li><li>• <a href="#">Indigenous</a>, Superseded 14/07/2021</li></ul>

**Description:** As part of the National Indigenous Reform Agreement (NIRA), the Council of Australian Governments (COAG) agreed that the Australian Government Department of Health, in partnership with the state and territory health departments and in collaboration with the Australian Institute of Health and Welfare, would develop a set of key performance indicators for Indigenous specific primary health-care services.

The national Key Performance Indicators (nKPIs) for Aboriginal and Torres Strait Islander primary health care will monitor, inform, and provide a direct line of sight between the activities of Australian Government, state- and territory-funded services that provide primary health care to Aboriginal and Torres Strait Islander people, and the COAG Closing the Gap targets, in particular the targets for life expectancy and child mortality.

The indicators will enable monitoring of the contribution of this part of the health system in achieving Closing the Gap targets. The nKPIs are intended to:

- indicate the major health issues pertaining to the regular client population of Indigenous-specific primary health care services (especially those of maternal health, early childhood and the detection and prevention of chronic diseases)
- outline the extent to which government-funded Indigenous-specific primary health-care services collect, record and review pertinent data on these issues, and
- reveal changes in health risks or outcomes that may be driven by the quality of care that government-funded services provide to their clients.

The nKPIs provide measures of the extent to which various general indicators of individual health and health-related behaviours among the Indigenous population are being captured by a targeted number of government-funded Indigenous-specific primary health-care services.

The population of interest in the nKPIs is the regular client population of an Australian Government Department of Health-funded primary health-care service that is required to report against the Indigenous primary health-care nKPIs. A regular client is defined as a client who has an active medical record; that is, a client who attended the Department of Health-funded primary health-care service at least 3 times in 2 years.

[Health](#), Retired 13/10/2021  
[Indigenous](#), Superseded 14/07/2021

[Indigenous primary health care: PI14b-Proportion of regular clients aged 50 years and over who are immunised against influenza, June 2020](#)

[Health](#), Retired 13/10/2021  
[Indigenous](#), Superseded 14/07/2021

[Indigenous primary health care: PI15a-Number of regular clients with Type II diabetes or chronic obstructive pulmonary disease \(COPD\) who are immunised against influenza, June 2020](#)

[Health](#), Retired 13/10/2021  
[Indigenous](#), Superseded 14/07/2021

[Indigenous primary health care: PI15b-Proportion of regular clients with Type II diabetes or chronic obstructive pulmonary disease \(COPD\) who are immunised against influenza, June 2020](#)

[Health](#), Retired 13/10/2021  
[Indigenous](#), Superseded 14/07/2021

[Indigenous primary health care: PI16a-Number of regular clients whose alcohol consumption status has been recorded, June 2020](#)

[Health](#), Retired 13/10/2021  
[Indigenous](#), Superseded 14/07/2021

[Indigenous primary health care: PI16b-Proportion of regular clients whose alcohol consumption status has been recorded, June 2020](#)

[Health](#), Retired 13/10/2021  
[Indigenous](#), Superseded 14/07/2021

[Indigenous primary health care: PI17a-Number of regular clients who had an AUDIT-C with result within specified levels, June 2020](#)

[Health](#), Retired 13/10/2021  
[Indigenous](#), Superseded 14/07/2021

[Indigenous primary health care: PI17b-Proportion of regular clients who had an AUDIT-C with result within specified levels, June 2020](#)

[Health](#), Retired 13/10/2021  
[Indigenous](#), Superseded 14/07/2021

[Indigenous primary health care: PI18a-Number of regular clients with a selected chronic disease who have had a kidney function test, June 2020](#)

[Health](#), Retired 13/10/2021  
[Indigenous](#), Superseded 14/07/2021

[Indigenous primary health care: PI18b-Proportion of regular clients with a selected](#)

[chronic disease who have had a kidney function test, June 2020](#)  
[Health](#), Retired 13/10/2021  
[Indigenous](#), Superseded 14/07/2021

[Indigenous primary health care: PI19a-Number of regular clients with a selected chronic disease who have had a kidney function test with results within specified levels, June 2020](#)  
[Health](#), Retired 13/10/2021  
[Indigenous](#), Superseded 14/07/2021

[Indigenous primary health care: PI19b-Proportion of regular clients with a selected chronic disease who have had a kidney function test with results within specified levels, June 2020](#)  
[Health](#), Retired 13/10/2021  
[Indigenous](#), Superseded 14/07/2021

[Indigenous primary health care: PI20a-Number of regular clients who have had the necessary risk factors assessed to enable cardiovascular disease \(CVD\) assessment, June 2020](#)  
[Health](#), Retired 13/10/2021  
[Indigenous](#), Superseded 14/07/2021

[Indigenous primary health care: PI20b-Proportion of regular clients who have had the necessary risk factors assessed to enable cardiovascular disease \(CVD\) assessment, June 2020](#)  
[Health](#), Retired 13/10/2021  
[Indigenous](#), Superseded 14/07/2021

[Indigenous primary health care: PI21a-Number of regular clients aged 35 to 74 years who have had an absolute cardiovascular disease \(CVD\) risk assessment with results within specified levels, June 2020](#)  
[Health](#), Retired 13/10/2021  
[Indigenous](#), Superseded 14/07/2021

[Indigenous primary health care: PI21b-Proportion of regular clients aged 35 to 74 years who have had an absolute cardiovascular disease \(CVD\) risk assessment with results within specified levels, June 2020](#)  
[Health](#), Retired 13/10/2021  
[Indigenous](#), Superseded 14/07/2021

[Indigenous primary health care: PI22a-Number of regular clients who have had a cervical screening, June 2020](#)  
[Health](#), Retired 13/10/2021  
[Indigenous](#), Superseded 14/07/2021

[Indigenous primary health care: PI22b-Proportion of regular clients who have had a cervical screening, June 2020](#)  
[Health](#), Retired 13/10/2021  
[Indigenous](#), Superseded 14/07/2021

[Indigenous primary health care: PI23a-Number of regular clients with Type II diabetes who have had a blood pressure measurement result recorded, June 2020](#)  
[Health](#), Retired 13/10/2021  
[Indigenous](#), Superseded 14/07/2021

[Indigenous primary health care: PI23b-Proportion of regular clients with Type II diabetes who have had a blood pressure measurement result recorded, June 2020](#)  
[Health](#), Retired 13/10/2021  
[Indigenous](#), Superseded 14/07/2021

[Indigenous primary health care: PI24a-Number of regular clients with Type II diabetes whose blood pressure measurement result was less than or equal to 130/80 mmHg, June 2020](#)  
[Health](#), Retired 13/10/2021  
[Indigenous](#), Superseded 14/07/2021

[Indigenous primary health care: PI24b-Proportion of regular clients with Type II diabetes whose blood pressure measurement result was less than or equal to 130/80 mmHg, June 2020](#)  
[Health](#), Retired 13/10/2021

## Collection and usage attributes

**National reporting arrangement:** Each service funded by the Australian Government Department of Health to provide Indigenous-specific primary health care data should record service provision in clinical information management systems that allow the electronic transmission of data for the Indigenous primary health care NBEDS (IPHC NBEDS), to be used in the calculation of the nKPIs. Exceptions may be made for services that do not have compatible clinical information management systems to manually upload data.

**Implementation start date:** 01/01/2020

**Implementation end date:** 30/06/2020

**Comments:** As originally Endorsed by NHDISC the 2020-2021 indicator set became no longer valid for all periods (accurate for June 2020) as a result of advice from the Aboriginal and Torres Strait Islander Health Services Data Advisory Group.

The name of the indicator set and implementation start and end date adjusted to reflect the change, with the previously Endorsed time period preserved below.

This indicator set covers a 24 month reporting period from 1 January 2020 to 31 December 2021:

- Indigenous primary health care NBEDS 2019–20 covers the period 01/01/2020 to 30/06/2020
- Indigenous primary health care NBEDS 2020–21 covers the period 01/07/2020 to 30/06/2021
- Indigenous primary health care NBEDS 2021–22 (to be released) will cover the period 01/07/2021 to 31/12/2021.
