Indigenous primary health care: PI01a-Number of Indigenous babies born within the previous 12 months whose birthweight has been recorded, June 2020

Identifying and definitional attributes

| | |
|-----------------------------|--|
| Metadata item type: | Indicator |
| Indicator type: | Output measure |
| Short name: | PI01a-Number of Indigenous babies born within the previous 12 months whose birthweight has been recorded, 2020–2021 |
| METEOR identifier: | 717264 |
| Registration status: | Health , Retired 13/10/2021 Indigenous , Superseded 14/07/2021 |
| Description: | Number of Indigenous babies born within the previous 12 months whose birthweight has been recorded at the primary health-care service. |
| Rationale: | Low birthweight (newborn babies weighing less than 2,500 grams) is associated with an increased risk of ill health and is related to higher mortality within the first year of life. Low birthweight is a particular issue for Indigenous Australians. Recording birthweight encourages the provision of appropriate care to limit the negative associations of low birthweight. |
| Indicator set: | Indigenous primary health care key performance indicators June 2020 Health , Retired 13/10/2021 Indigenous , Superseded 14/07/2021 |

Collection and usage attributes

| | |
|---------------------------------|--|
| Computation description: | <p>Count of Indigenous babies born within the previous 12 months whose birthweight has been recorded at the primary health-care service.</p> <p>Birthweight is defined as the first weight of a baby obtained after birth.</p> <p>Only live births are included.</p> <p>Results arising from measurements conducted outside of the service, that are known by the service, are included in the calculation of this indicator.</p> <p>Presented as a number.</p> <p>'Previous 12 months' refers to the previous financial year or previous calendar year.</p> |
| Computation: | Numerator only. |
| Numerator: | Number of Indigenous babies born within the previous 12 months whose birthweight has been recorded at the primary health-care service. |
