Health system

Identifying and definitional attributes

Item type:	Framework Dimension
METEOR identifier:	721195
Description:	Is the health system (by itself, and with others) working to prevent illness, injury and disease? Is it delivering safe, effective, and accessible coordinated care appropriate for each individual? Is the health system efficient and sustainable? Is the health system working to support/facilitate mental health recovery? Does the health system address the needs of consumers and family/kin/friends/carers (referred to in this framework as 'consumers and carers') and include them as part of the care?

Dimensions of this framework

- [Accessibility](#)

Identifying and definitional attributes

Item type:	Framework Dimension
METEOR identifier:	721203
Description:	People can obtain health care at the right place and right time, taking account of different population needs and the affordability of care.

• [Appropriateness](#)

Identifying and definitional attributes

Item type:	Framework Dimension
METEOR identifier:	721198
Description:	Service is a person-centred, culturally appropriate, rights-based, trauma-informed and recovery oriented. Mental health consumers and carers are treated with dignity and confidentiality and encouraged to participate in choices related to their care. Consumers and carers report positive experiences (PROMs & PREMs).

Indicators in this framework

- [KPIs for Australian Public Mental Health Services: PI 13 – Mental health consumer outcomes participation, 2021– \(Service level\)](#)
Health, Standard 17/12/2021
- [KPIs for Australian Public Mental Health Services: PI 13 – Mental health consumer outcomes participation, 2020 \(Service level\)](#)
Health, Superseded 17/12/2021

• [Continuity of care](#)

Identifying and definitional attributes

Item type:	Framework Dimension
METEOR identifier:	721201
Description:	Ability to provide uninterrupted and integrated care or service across program, practitioners and levels over time. Coordination mechanisms work for mental health consumers, carers and health care providers. Care and support is holistic and includes psychosocial and physical dimensions.

Indicators in this framework

- [KPIs for Australian Public Mental Health Services: PI 12J – Post-discharge community mental health care, 2020](#)

• [Effectiveness](#)

Identifying and definitional attributes

Item type:	Framework Dimension
METEOR identifier:	721196
Description:	Care, intervention or action achieves the desired outcome from both the clinical perspective (clinician-reported outcome measure–CROMs) and the mental health consumer and carer perspective (patient-reported outcome measures–PROMs). Care provided is based on evidence-based standards.

Indicators in this framework

• [Efficiency and sustainability](#)

Identifying and definitional attributes

Item type: Framework Dimension

METEOR identifier: 721208

Description: The right care is delivered at minimum cost and human and physical capital and technology are maintained and renewed *while* innovation occurs to improve efficiency and respond to emerging needs. Members of the workforce receive appropriate support and report positive experiences.

• **Safety**

Identifying and definitional attributes

Item type: Framework Dimension

METEOR identifier: 721197

Description: The avoidance of, or reduction to, acceptable limits of actual or potential harm (physical or psychological) from health care management or the environment in which health care is delivered. Includes aspects of the safety of care delivered to consumers (including patient-reported incidents and restrictive practices) as well as safety of carers and workforce.
