6. Efficiency & Sustainability

Identifying and definitional attributes

Item type: Framework Dimension

METEOR identifier: 721647

Description: Health care is considered efficient when the right care is delivered at minimum

cost. One way efficiency can be measured is by the cost per hospital separation. A sustainable health system maintains, renews and innovates resources to continually

improve efficiency and respond to emerging needs. Net growth in the health

workforce is an indicator of sustainability of the health care system.
