Data element attributes

Collection and usage attributes

| | |
|-----------------------|---|
| Guide for use: | <p>Payments are to be reported at the lowest statistical unit level at which the expenditure occurred (state/territory or region level), and should not be reported at more than one level.</p> <p>Non-government organisations receiving payments for more than one service type should apportion amounts to the service type categories based on the specific provisions of the payment.</p> <p>Payments for <i>Staffed residential services</i> (Code 7 in the Service type data element) must exclude any payments reported as expenditure elsewhere, such as residential service unit expenditure, organisational, regional or state level indirect expenditure.</p> <p>Payments not allocatable to specific service types should be reported under other and unspecified services payments to non-government organisations (Code 88 in the Service type data element).</p> <p>Where the exact dollar amount for services is unable to be provided an estimate should be derived from available local information.</p> |
|-----------------------|---|

Collection methods: Data reported as payments to non-government organisations should exclude any capital expenditure payments, where the primary purpose of the payment is known to be specifically for the purpose of capital investment.
