

Counselling—face to face

Identifying and definitional attributes

Metadata item type: Glossary Item

METEOR identifier: 721748

Registration status:

- [Health](#), Standard 16/01/2020

Definition: Counselling services operate through a range of mediums including face-to-face, telephone and online. This service type is intended only for services providing face-to-face counselling.

Counselling services provide a structured process that is concerned with addressing and resolving specific problems, making decisions, working through feelings and inner conflicts, or improving relationships with others (BAC 1986). Counselling facilitates personal growth, development, self-understanding and the adoption of constructive life practices.

The counselling process will depend on the individual counsellor, the individual client and the specific issue.

Context: Mental health non-government organisation establishments service type taxonomy.
