# Counselling, support, information and referral—online

## Identifying and definitional attributes

**Metadata item type:** Glossary item

**METEOR identifier:** 721752

**Registration status:** [Health](#), Standard 16/01/2020

**Definition:** Counselling, support, information and referral services can be provided both via telephone and online. This service type is intended only for services provided online.

Counselling services provide a structured process that is concerned with addressing and resolving specific problems, making decisions, working through feelings and inner conflicts, or improving relationships with others (BAC 1986). Counselling facilitates personal growth, development, self-understanding and the adoption of constructive life practices.

The counselling process will depend on the individual counsellor, the individual client and the specific issue.

Mental health support, information and referral services are those that provide support for people experiencing mental illness and which offer reliable referrals, information and self-help resources to empower people to take steps towards maintaining mental health and emotional wellbeing (Lifeline 2012).

**Context:** Mental health non-government organisation establishments service type taxonomy.

## Collection and usage attributes

**Guide for use:** *Distinguishing features:*

- Primarily delivered on a one-on-one basis
- Primarily delivered via an interactive 'chat' style modality

*Inclusions:*

- Synchronous online chat
- Automated referral systems
- Email

Note: Email-based activity is not intended to be measured under the Mental health non-government organisation establishments DSS at this stage.

*Exclusions:*

- Occasional services delivered under other service types that are incidentally provided via the Internet
- Online services that are delivered as an adjunct for other service types
- Counselling, support, information and referral services not provided online
