## Care coordination

## Identifying and definitional attributes

**Metadata item type:** Glossary Item

METEOR identifier: 721771

Registration status: Health, Standard 16/01/2020

**Definition:** Care coordination services provide a single point of contact (via a Care Facilitator)

for people (and their families/carers) with lived experience of mental illness and complex care needs. Care Facilitators will be responsible for ensuring all of the patients' care needs, clinical and non-clinical and as determined by a nationally consistent assessment tool, are being met (Commonwealth of Australia 2012).

**Context:** Mental health non-government organisation establishments service type taxonomy.

## Collection and usage attributes

**Guide for use:** Distinguishing features:

 The principal service provided is the coordination of access to a range of services required by the individual

Where other support services are delivered, they are incidental to the

principal care coordination role

Inclusions:

· Care coordination

Exclusions:

· Care coordination provided as part of delivering another service type
