Value domain attributes

Identifying and definitional attributes

Value domain:	Total clients NNNNNN
METEOR identifier:	425390
Registration status:	Health , Standard 07/12/2011
Definition:	Total number of people or clients.

Representational attributes

Representation class:	Total
Data type:	Number
Format:	NNNNNN
Maximum character length:	6
Unit of measure:	Person

Data element attributes

Collection and usage attributes

Guide for use: The total number of clients is reported by ambulatory mental health care service units to the Mental health establishments NMDS. The total should be a count of uniquely identifiable individuals at the service unit level, regardless of the registration status of the client, who are reported to the Community mental health care NMDS.
