Specialised mental health service—residual expenditure (mental health promotion), total Australian currency N[N(8)]

Identifying and definitional attributes

Metadata item type:	Data Element
Short name:	Residual expenditure (mental health service)—mental health promotion
METEOR identifier:	722129
Registration status:	Health , Standard 16/01/2020
Definition:	Expenditure in Australian dollars by specialised mental health services that cannot be directly related to programs operated by a particular organisation or service unit (that is, can only be indirectly related to a particular organisation or service unit). It refers to the organisation, region or state/territory administration expenditure dedicated specifically to mental health promotion objectives. Mental health promotion is defined as activities designed to lead to improvement of the mental health functioning of persons through prevention, education and intervention activities and services.

Data element concept attributes

Identifying and definitional attributes

Data element concept:	Specialised mental health service—residual expenditure (mental health promotion)
METEOR identifier:	295539
Registration status:	Health , Standard 08/12/2004
Definition:	Expenditures by specialised mental health services that cannot be directly related to programs operated by a particular organisation or service unit (that is, can only be indirectly related to a particular organisation or service unit). It refers to the organisation, region or state/territory administration expenditure dedicated specifically to mental health promotion objectives. Mental health promotion is defined as activities designed to lead to improvement of the mental health functioning of persons through prevention, education and intervention activities and services.
Context:	Specialised mental health service: to improve and substantiate financial reporting in relation to residual mental health care expenditure and assist in understanding differences in costs for similar specialised mental health service in different states or territories and regions, where these cost differences are due to differences in the extent to which support services and other services to residents/admitted patients and outpatients of an organisation or service unit may be provided by the organisation or service unit itself or by other bodies
Object class:	Specialised mental health service
Property:	Residual expenditure

Data type: Currency
Format: N[N(8)]
Maximum character length: 9
Unit of measure: Australian currency (AU\$)

Source and reference attributes

Submitting organisation: Australian Institute of Health and Welfare

Data element attributes

Collection and usage attributes

Guide for use: Excludes payments to non-government organisations for services that are to be reported separately. These are payments for accommodation services, advocacy services, community awareness services, counselling services, independent living skills support services, pre-vocational training services, psychosocial support services, recreational services, respite services, self-help support group services and other unspecified services payments.

Reporting expenditure against this item is not intended to be based on costing of activities that retrospectively entailed a significant mental health promotion component. Instead it should be confined to financial allocations that were clearly targeted towards mental health promotion objectives.

Collection methods: Residual mental health expenditure is to be reported only at the level at which the expenditure occurred (state/territory, region or organisational), and should not be counted at more than one level.

Do not count these costs if they have been included in the expenditure reported by service delivery organisations within the region.
