Collection and usage attributes

Guide for use:	Record values up to hundreds of millions of dollars. Rounded to nearest whole dollar.
Comments:	The item would not have been retained if the data set was restricted to the public sector. In some States, public hospitals may not be permitted to borrow funds or it may be entirely a State treasury matter, not identifiable by the health authority. Even where public sector establishment borrowings might be identified, this appears to be a sensitive area and also of less overall significance than in the private sector.
