Episode of mental health care—episode start mode, code N

Identifying and definitional attributes

Metadata item type:	Data Element
Short name:	Episode of mental health care start mode
METEOR identifier:	723150
Registration status:	Health , Superseded 23/12/2020
Definition:	The mechanism by which a person begins an episode of mental health care , as represented by a code.
Data Element Concept:	Episode of mental health care—episode start mode
Value Domain:	Episode start mode code N

Value domain attributes

Representational attributes

Representation class:	Code	
Data type:	Number	
Format:	N	
Maximum character length:	1	
	Value	Meaning
Permissible values:	1	Start of a new episode of care/statistical admission
	2	Start of a new reference period
	3	Start of expected short concurrent residential stay (on leave from other residential mental health service)
Supplementary values:	9	Unknown/not stated/inadequately described

Collection and usage attributes

Guide for use:	CODE 1 Start of a new episode of care/statistical admission
	Refers to the formal start of an episode of care or the statistical start of an admitted patient episode of care.
	CODE 2 Start of a new reference period
	Refers to the statistical start of a residential or ambulatory mental health care episode necessary at the commencement of a reporting period (i.e. calendar or financial year).
	CODE 3 Start of expected short concurrent residential stay (on leave from other residential mental health service)
	Refers to the start of an expected short concurrent residential stay when a resident is on leave from the original residential mental health service with the intention of return. This code is only applicable for residential patients.
