Data type: Number

Format: N

Maximum character length: 1

ValueMeaningPermissible values:1Start of a new episode of care/statistical admission2Start of a new reference period3Start of expected short concurrent residential stay (on leave from other residential mental health service)Supplementary values:9Unknown/not stated/inadequately described

Collection and usage attributes

Guide for use: CODE 1 Start of a new episode of care/statistical admission

Refers to the formal start of an episode of care or the statistical start of an admitted patient episode of care.

CODE 2 Start of a new reference period

Refers to the statistical start of a residential or ambulatory mental health

care episode necessary at the commencement of a reporting period (i.e. calendar

or financial year).

CODE 3 Start of expected short concurrent residential stay (on leave from other

residential mental health service)

Refers to the start of an expected short concurrent residential stay when a resident is on leave from the original residential mental health service with the intention of

return. This code is only applicable for residential patients.
