## Data element attributes

### Collection and usage attributes

<b>Guide for use:</b>	The phrase 'at the conclusion' in the definition refers to evaluation of findings interpreted by the clinician available at the end of the emergency department stay. This may include information gained from the history of illness, any mental status evaluation, specialist consultations, physical examinations, diagnostic tests or procedures, surgical procedures and pathological or radiological examinations.

**Implementation in Data Set Specifications:** [Non-admitted patient emergency department care NMDS 2019–20](#)  
[Health](#), Superseded 18/12/2019

**Implementation start date:** 01/07/2019

**Implementation end date:** 30/06/2020

**Conditional obligation:**

The reporting of this data element is conditional for those attendances where the value recorded for *Non-admitted patient emergency department service episode* —*episode end status* is reported as either:

Code 4 - Did not wait to be attended by a health care professional;

Code 5 - Left at own risk after being attended by a health care professional but before the non-admitted patient emergency department service episode was completed;

Code 7 - Dead on arrival, emergency department clinician certified the death of the patient; or

Code 8 - Registered, advised of another health care service, and left the emergency department without being attended by a health care professional.
