# Episode of mental health care—episode end mode, code N[N{.N}]

## Identifying and definitional attributes

<b>Metadata item type:</b>	Data Element
<b>Short name:</b>	Episode of mental health care end mode
<b>METEOR identifier:</b>	730802
<b>Registration status:</b>	<a href="#">Health</a> , Superseded 17/12/2021
<b>Definition:</b>	The status of a patient at <a href="#">separation</a> from an episode of <a href="#">mental health care</a> and where applicable, place to which a patient is released, as represented by a code.
<b>Data Element Concept:</b>	<a href="#">Episode of mental health care—episode end mode</a>
<b>Value Domain:</b>	<a href="#">Episode end mode code N[N{.N}]</a>

## Value domain attributes

## Representational attributes

<b>Representation class:</b>	Code	
<b>Data type:</b>	Number	
<b>Format:</b>	N[N{.N}]	
<b>Maximum character length:</b>	3	
<b>Permissible values:</b>	<b>Value</b>	<b>Meaning</b>
	1	Discharge/transfer to a hospital
	2.1	Discharge/transfer to a residential aged care service, which is not the usual place of residence
	2.2	Discharge/transfer to a residential aged care service, which is the usual place of residence
	3	Discharge/transfer to other health care accommodation, unless this is the usual place of residence
	4	Discharge due to inactivity
	5	Discharge from leave
	6	Left against medical advice/discharge at own risk
	7	Other (including place of usual residence, unless usual place of residence is residential aged care)
	8	Statistical discharge due to admitted care type change
<b>Supplementary values:</b>	9	End of reference period
	10	Died
	98	Unknown
	99	Not stated/inadequately described

## Collection and usage attributes

<b>Guide for use:</b>	CODE 1 Discharge/transfer to a hospital
	This code refers to the discharge/transfer of a patient to hospital (including acute or psychiatric whereby the patient physically leaves the facility). The transfer may be to a general ward or mental health ward.

CODE 2.1 Discharge/transfer to a residential aged care service, which is not the usual place of residence

This code refers to a discharge/transfer to a residential aged care service, unless this is the usual place of residence. If the residential aged care service is the patient's place of usual residence, then they should have an episode end mode of Code 2.2.

CODE 2.2 Discharge/transfer to a residential aged care service, which is the usual place of residence

This code refers to a discharge/transfer to a residential aged care service, which is the usual place of residence. If the residential aged care service is not the patient's place of usual residence, then they should have an episode end mode of Code 2.1.

CODE 3 Discharge/transfer to other health care accommodation, unless this is the usual place of residence

This code refers to a patient discharge/transfer to other health care accommodation, including mothercraft hospitals. In jurisdictions where mothercraft facilities are considered to be acute hospitals, patients separated to a mothercraft facility should have an episode end mode of Code 1.

CODE 4 Discharge due to inactivity

This code refers to the closing of an episode due to patient inactivity with the service provider. This code is only used in [ambulatory mental health care service setting](#). For the purposes of activity based funding reporting, Code 9 is used after the episode of care has had a period of 120 days in which no service contact or event occurs

CODE 5 Discharge from leave

This code refers to the administrative process by which a provider records the cessation of the episode of care while the patient is on leave. This includes an unplanned cessation of an episode of care while the patient is on leave, where there was a plan for the patient to return, however the patient did not return from leave. This value does not apply to the ambulatory setting.

CODE 6 Left against medical advice/discharge at own risk

This code refers to a patient who leaves a mental health care service against medical advice or is discharged at their own risk.

CODE 7 Other (including place of usual residence, unless usual place of residence is residential aged care)

This code includes discharges to other locations, including discharges to usual residence, own accommodation/ welfare institution (includes prisons, hostels, and group homes providing primarily welfare services.) This includes the end of a concurrent short intervention stay where a resident returns to the original residential mental health service after a period of leave days. This code excludes discharge/transfer to other health care accommodation that is not the usual place of residence (Code 3) and to residential aged care services (Code 2.1 or 2.2).

CODE 8 Statistical discharge due to admitted care type change

This code is only to be used in admitted mental health settings when a care type has changed resulting in a statistical discharge but the patient has not physically left the hospital.

#### CODE 9 End of reference period

This code refers to the statistical end of a residential or ambulatory mental health care episode necessary at the end of a reporting period (i.e. calendar or financial year) where the patient has not been otherwise separated.

#### CODE 10 Died

This code refers to the closing of an episode due to the death of a patient.

## Data element attributes

### Collection and usage attributes

#### Guide for use:

When CODE 8 is used, the date of the last service event or contact in the episode should be recorded as the [Episode of mental health care—episode end date, DDMMYYYY](#).

The applicable codes changed in 2020. For time series purposes the following applies:

NBEDS 2018–19	NBEDS 2021-22
CODE 1 Discharge/transfer to a hospital	CODE 1 Discharge/transfer to a hospital
CODE 2 Discharge/transfer to a residential aged care service, unless this is the usual place of residence	CODE 2.1 Discharge/transfer to a residential aged care service, which is not the usual place of residence
CODE 3 Discharge/transfer to other health care accommodation, unless this is the usual place of residence	CODE 3 Discharge/transfer to other health care accommodation, unless this is the usual place of residence
CODE 4 Discharge due to inactivity	CODE 4 Discharge due to inactivity
CODE 5 Discharge from leave	CODE 5 Discharge from leave
CODE 6 Left against medical advice/discharge at own risk	CODE 6 Left against medical advice/discharge at own risk
CODE 7 Other (including place of usual residence)	CODE 2.2 Discharge/transfer to a residential aged care service, which is the usual place of residence
	CODE 7 Other (including place of usual residence, unless usual place of residence is a residential aged care service)
CODE 8 Statistical discharge due to admitted care type change	CODE 8 Statistical discharge due to admitted care type change
CODE 9 End of reference period	CODE 9 End of reference period
CODE 10 Died	CODE 10 Died

**Collection methods:** For the purposes of activity based funding, this item can be derived from existing data elements.

Admitted patient care: This data element can be derived from [Episode of admitted patient care—separation mode, code N](#).

Residential patient care: This data element can be derived from [Episode of residential care—episode end mode, code N](#).
