<b>Implementation in Data Set Specifications:</b>	<p><a href="#">Perinatal NMDS 2021–22</a></p> <p><a href="#">Health</a>, Superseded 17/12/2021</p>
---	--

**Implementation start date:** 01/07/2021

**Implementation end date:** 30/06/2022

**DSS specific information:**

Used to analyse the risk factors and outcomes by place of birth. While most births occur within hospitals, an increasing number of births now occur in other settings. It is important to monitor the births occurring outside hospitals and to ascertain whether or not the actual place of birth was planned.

If a jurisdiction is unable to record this data element for each baby in a multiple birth then the place of birth of the first-born baby should be recorded.
