Birth event—analgesia administered indicator, yes/no/not stated/inadequately described code N

Identifying and definitional attributes

Metadata item type:	Data Element
Short name:	Analgesia administered during a birth event indicator
METEOR identifier:	732344
Registration status:	Health , Superseded 09/12/2022
Definition:	An indicator of whether analgesia was administered to the female during a birth event with labour, as represented by a code.
Data Element Concept:	Birth event—analgesia administered indicator
Value Domain:	Yes/no/not stated/inadequately described code N

Value domain attributes

Representational attributes

Representation class:	Code	
Data type:	Boolean	
Format:	N	
Maximum character length:	1	
	Value	Meaning
Permissible values:	1	Yes
	2	No
Supplementary values:	9	Not stated/inadequately described

Collection and usage attributes

Guide for use:	CODE 9 Not stated/inadequately described
	This code is not for use in primary data collections.

Source and reference attributes

Submitting organisation:	Australian Institute of Health and Welfare
---------------------------------	--

Data element attributes

Collection and usage attributes

Guide for use:	This data element should be recorded in conjunction with the Birth event—type of analgesia administered, code N[N] data element when the analgesia administered indicator is Code 1 (Yes).
-----------------------	--

Source and reference attributes

Submitting organisation:	National Perinatal Data Development Committee
