Product of birth—birth status, code N

Identifying and definitional attributes

Metadata item type:	Data Element
Short name:	Status of the baby
METEOR identifier:	732895
Registration status:	Health , Standard 03/12/2020 Indigenous , Standard 14/07/2021 Tasmanian Health , Standard 24/03/2023
Definition:	The status of a baby at birth, as represented by a code.
Context:	Perinatal
Data Element Concept:	Product of birth—birth status
Value Domain:	Birth status code N

Value domain attributes

Representational attributes

Representation class:	Code	
Data type:	Number	
Format:	N	
Maximum character length:	1	
	Value	Meaning
Permissible values:	1	Live birth
	2	Stillbirth (fetal death)
Supplementary values:	9	Not stated/inadequately described

Collection and usage attributes

Guide for use: CODE 1 Live birth

[Live birth](#) is the complete expulsion or extraction from its mother of a product of conception, irrespective of the duration of the pregnancy which, after such separation, breathes or shows any other evidence of life, such as beating of the heart, pulsation of the umbilical cord, or definite movement of voluntary muscles, whether or not the umbilical cord has been cut or the placenta is attached; each product of such a birth is considered liveborn (WHO 2004).

CODE 2 Stillbirth (fetal death)

[Stillbirth](#) is a fetal death prior to the complete expulsion or extraction from its mother of a product of conception of 20 or more completed weeks of gestation or of 400 grams or more [birthweight](#); the death is indicated by the fact that after such separation the fetus does not breathe or show any other evidence of life, such as beating of the heart, pulsation of the umbilical cord, or definite movement of voluntary muscles. This is the same as the WHO definition of fetal death, except that there are no limits of gestational age or birthweight in the WHO definition (WHO 2004).

Implementation in Data Set Specifications: [Aboriginal and Torres Strait Islander specific primary health care NBEDS December 2023](#)

[Indigenous](#), Standard 25/02/2024

Implementation start date: 01/07/2023

Implementation end date: 31/12/2023

Conditional obligation:

Data are only provided to the AIHW for babies born during the preceding 12 months up to the census date. In the case of multiple births, data should be provided for each baby born.

DSS specific information:

Data are provided to the AIHW twice:

1. relating to live births only, and;
2. relating to both live births, and to still births if the birthweight was at least 400 grams or the gestational age was 20 weeks or more.

[Aboriginal and Torres Strait Islander specific primary health care NBEDS June 2024](#)

[Indigenous](#), Qualified 17/04/2024
