Data element attributes

Collection and usage attributes

Guide for use:	<p>The birth setting should be recorded for each baby that the mother delivers from the pregnancy.</p> <p>Code 5 is not to be recorded for intended setting of birth.</p>
Comments:	<p>Women who plan to give birth in birth centres or at home usually have different risk factors for outcome compared to those who plan to give birth in hospitals. Women who are transferred to hospital after the onset of labour have increased risks of intervention and adverse outcomes.</p>
