# Establishment—recurrent expenditure (salaries and wages) (mental health consumer workers) (financial year), total Australian currency N[N(8)]

## Identifying and definitional attributes

Metadata item type:	Data Element
Short name:	Recurrent expenditure (salaries and wages)—mental health consumer workers
METEOR identifier:	736971
Registration status:	<a href="#">Health</a> , Standard 20/01/2021
Definition:	Salary and wage payments to <a href="#">mental health consumer workers</a> of an establishment, for a financial year.

## Data element concept attributes

### Identifying and definitional attributes

Data element concept:	<a href="#">Establishment—recurrent expenditure (salaries and wages)</a>
METEOR identifier:	736930
Registration status:	<a href="#">Health</a> , Standard 20/01/2021
Definition:	<p>Salary and wage payments for all employees of the establishment (including contract staff employed by an agency, provided staffing data is also available).</p> <p>Generally, salary data by staffing categories should be broadly consistent with full-time equivalent staffing numbers. Where staff provide services to more than one hospital (for Local Hospital Networks/Public hospital establishments NMDs) or service unit (for Mental health establishments NMDs), their salaries should be apportioned between all hospitals to whom services are provided on the basis of hours worked in each hospital.</p> <p>Salary payments for contract staff employed through an agency should be included under salaries for the appropriate staff category provided they are included in full-time equivalent staffing. If they are not, salary payments should be shown separately.</p>
Context:	<p>Health expenditure:</p> <p>Salaries and wages invariably constitute the major component of recurrent and, indeed, total expenditure for establishments, and are vital to any analysis of health expenditure at the national level. The categories correspond with those relating to full-time equivalent staffing which is a requirement for any proper analysis of average salary costs.</p>
Object class:	<a href="#">Establishment</a>
Property:	<a href="#">Recurrent expenditure</a>

**Definition:** Total number of Australian dollars.

## Representational attributes

**Representation class:** Total

**Data type:** Currency

**Format:** N[N(8)]

**Maximum character length:** 9

**Unit of measure:** Australian currency (AU\$)

## Source and reference attributes

**Submitting organisation:** Australian Institute of Health and Welfare

## Data element attributes

## Collection and usage attributes

**Guide for use:** Mental health consumer workers are persons employed (or engaged via contract) on a part-time or full-time basis, i.e. the person received a salary or contract fee on a regular basis. It does not refer to arrangements where the consumer worker only received reimbursements of expenses or occasional sitting fees for attendance at meetings.

Mental health consumer workers employed at the jurisdictional or regional level are considered in-scope. Salary costs should be apportioned between all establishments, as deemed appropriate by the jurisdiction (full-time-equivalent staff figures should be apportioned on the same basis).

**Collection methods:** Note: This code is only to be reported for the Mental Health Establishments NMDS.

For Local Hospital Networks/Public hospital establishments NMDS data are to be reported in a category according to specific state and territory arrangements.
