Department of Health data (Indigenous expenditure)

Identifying and definitional attributes

Item type: Data Source

METEOR identifier: 742122

Description: The Department of Health (DoH) provides budget statements on an annual basis, which outlines how the Government has allocated resources to various outcomes and their programs. Among these is Program 2.2: Aboriginal and Torres Strait Islander Health, the focus of which is the “delivery of high quality essential health services to Aboriginal and Torres Strait Islander peoples”. The DoH annual budget provides nominal values for expenditure in this program, which is then indexed by the AIHW to allow for analysis of real growth.
