DSS specific information:

Guide for use

The order issue date is the date on which a legal order or arrangement is handed down or issued by the court.

The order issue date can differ from the order start date as it is the date that the order was handed by the court, while the [order state date](#) is the date an order comes into effect.

Orders can be handed down to take effect in the future. In these cases, the order issue date will be before the order start date.

The order issue date can be equal to the order start date if the order was issued on the same day that the order came into effect.

The order issue date can also be after the order start date if the court order was backdated to take into account time already served. For example, if a sentence of detention is backdated to the start of the young person's remand period, the order start date will be before the period of sentenced detention actually began.
