# International Statistical Classification of Diseases and Related Health Problems, Tenth Revision, Australian Modification Twelfth edition

## Exported from METEOR (AIHW's Metadata Online Registry)

# International Statistical Classification of Diseases and Related Health Problems, Tenth Revision, Australian Modification Twelfth edition

## Identifying and definitional attributes

| | |
|---|---|
| **Metadata item type:** | Classification Scheme |
| **Synonymous names:** | ICD-10-AM Twelfth edn; ICD-10-AM 12th edn |
| **METEOR identifier:** | 746656 |
| **Registration status:** | Aged Care, Standard 30/06/2023<br>Health, Standard 20/10/2021<br>Tasmanian Health, Standard 17/10/2023 |
| **Definition:** | A statistical health classification of diseases, injuries and related health problems. |
| **Classification structure:** | ICD-10-AM is comprised of: |

- Tabular List of Diseases - contains core three character codes with some expansion to four and five character codes. The Morphology of neoplasms are specified in an appendix.
- Alphabetic Index of Diseases - consists of three sections: Section I is the index of diseases, syndromes, pathological conditions, injuries, signs, symptoms, problems and other reasons for contact with health services. Section II is the index of external causes of injury. The terms included here are not medical diagnoses but descriptions of the circumstances in which the violence occurred. Section III is the index of drugs and other chemical substances giving rise to poisoning or other adverse effects (also known as the Table of drugs and chemicals).

## Source and reference attributes
