Value	Meaning												
0	No problems within the period stated												
1	Minor problem requiring no action												
2	Mild problem but definitely present												
3	Moderately severe problem												
4	Severe to very severe problem												

## Supplementary values:

Value	Meaning
-------	---------

7	Not stated/missing
---	--------------------

9	Unable to rate because not known or not applicable to the consumer
---	--------------------------------------------------------------------

## Collection and usage attributes

### Guide for use:

The HoNOS 65+ is used to rate adult mental health service users. Together, the scales rate various aspects of mental and social health.

HoNOS 65+ is answered on an item-specific anchored 5-point scale with higher scores indicating more problems. Each scale is assigned a value of between 0 and 4, or 8 for unknown. The twelve scales are as follows:

1. behavioural disturbance
2. non-accidental self injury
3. problem drinking or drug use
4. cognitive problems
5. problems related to physical illness or disability
6. problems associated with hallucinations and delusions
7. problems associated with depressive symptoms
8. other mental and behavioural problems
9. problems with social or supportive relationships
10. problems with activities of daily living
11. overall problems with living conditions
12. problems with work and leisure activities and the quality of the daytime environment.

The sum of the individual scores of each of the scales (excluding supplementary values 7 Not stated/Missing and 9 Unable to rate because not known or not applicable to the consumer) represents the total HoNOS 65+ score. The total HoNOS 65+ score ranges from 0 to 48, and represents the overall severity of an individual's psychiatric symptoms.

## Data element attributes

## Collection and usage attributes

### Guide for use:

This data element is used to report a score for one of the 12 items that comprise the HoNOS 65+ tool. It should be reported in an array of 12 to gain the HoNOS 65+ score.
