Establishment—number of healthcare-associated Methicillin-resistant Staphylococcus aureus (MRSA) bloodstream infection patient episodes

Identifying and definitional attributes

Metadata item type:	Data Element Concept
METEOR identifier:	751483
Registration status:	Health , Standard 10/06/2022
Definition:	The number of healthcare-associated Methicillin-resistant Staphylococcus aureus (MRSA) bloodstream infection patient episodes , attributed to care provided by the hospital, reported during a specified reference period.

Object Class attributes

Identifying and definitional attributes

Object class:	Establishment
Definition:	Institutions, organisations or the community from which health services are provided. The term establishment covers conventional health establishments and also organisations which may provide services in the community.
Specialisation of:	Organisation

Source and reference attributes

Origin:	National Health Data Committee
---------	--------------------------------

Property attributes

Identifying and definitional attributes

Property:	Number of healthcare-associated Methicillin-resistant Staphylococcus aureus (MRSA) bloodstream infection patient episodes
Definition:	A count of healthcare-associated Methicillin-resistant Staphylococcus aureus (MRSA) bloodstream infection patient episodes reported during a specified reference period.
Property group:	Illness and/or Injury event

Source and reference attributes

Submitting organisation:	Australian Institute of Health and Welfare
Reference documents:	ACSQHC (Australian Commission on Safety and Quality in Health Care) 2021. Implementation Guide for the Surveillance of Staphylococcus aureus bloodstream infection. Sydney: ACSQHC, viewed 10 February 2022 https://www.safetyandquality.gov.au/publications-and-resources/resource-library/implementation-guide-surveillance-staphylococcus-aureus-bloodstream-infection
